

Docket No.: 415072002500
(PATENT)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:
Jennie P. MATHER et al.

Application No.: 10/600,802

Confirmation No.: 9712

Filed: June 19, 2003

Art Unit: 1642

For: NOVEL RAAG10 CELL SURFACE TARGET
AND A FAMILY OF ANTIBODIES
RECOGNIZING THAT TARGET

Examiner: M. Davis

DECLARATION AND VERIFICATION OF DEPOSIT

MS Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Penelope E. Roberts, declare as follows:

1. I am an inventor of the above-referenced patent application.
2. The host cell lines listed below and described in the above-referenced application were deposited at the American Type Culture Collection at 10801 University Boulevard, Manassas, VA 20110-2209. A true photocopy of the Receipt of Deposit of the host cell lines is attached hereto.

Deposited Material	Accession Number
Mouse Hybridoma: CA130.1.4C3.1H4	PTA-4217
Mouse Hybridoma BLA.3.3B6.3D4	PTA-4218
Mouse Hybridoma Panc.1.5C10.5D11	PTA-4244
Mouse Hybridoma Skin.2.6A2.1A8	PTA-4245

3. The above host cell lines have been deposited under conditions which assure that access to the cell lines will be irrevocably available during pendency of the patent application to one determined by the Assistant Commissioner to be entitled thereto under 37 C.F.R. § 1.14 and 35 U.S.C. § 122 and, upon issuance of any patent on the above-identified application, to the general public without restriction; and that said deposited cell lines shall be stored with the care necessary to keep them viable and uncontaminated for a period of at least five years after the most recent request for the furnishing of a sample of the deposited culture and in any case, for a period of at least 30 years after the date of deposit or for the enforceable life of the patent, whichever period is longer.

4. If the cell lines are lost or destroyed, that the cell lines will be replaced in the respective depository for the period stated above.

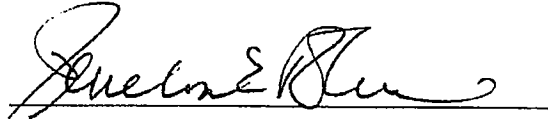

5. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that

such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,

Dated: April 07, 2008

Deposited on Behalf of: Raven Biotechnologies, Inc.

Identification Reference by Depositor:

Mouse hybridoma: Panc.1.5C10.5D11
Mouse hybridoma: Skin.2.6A2.1A8

Patent Deposit Designation

PTA-4244
PTA-4245

The deposits were accompanied by: a scientific description, a proposed taxonomic description indicated above. The deposits were received April 23, 2002 by this International Depository Authority and have been accepted.

AT YOUR REQUEST: X We will inform you of requests for the strains for 30 years.

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strains.

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested April 25, 2002. On that date, the cultures were viable.

International Depository Authority: American Type Culture Collection, Manassas, VA 20110-2209 USA.
